

Winnepesaukee Public Health Council (WPHC)

Franklin Savings Bank Welcome Center

March 3rd, 2016 3-4:30 PM

In Attendance: Marge Kerns (LRGHealthcare), Sally Minkow (LRGHealthcare), Alida Millham (Laconia Resident & PPH/LRGHealthcare BoD), Susan Wnuk (CAP Merrimack Belknap Counties), David Emberley (Central NH VNA and Hospice), Rick Silverberg (Health First Family Care Center), Lisa Leary (Partnership for Public Health), Rich Crocker (State Committee on Aging), Lisa Morris (PPH), Jennifer Groleau (PPH), Rachel Saliba (Tilton School), Susan Smith (NH Voices for Health/Gilford Resident), Scoop Welch (Granite United Way), Kathy Randazzo (Genesis Behavioral Health), Erin Pettengill (Lakes Region Community Services)

Agenda: Facilitator: Rachel Saliba

1. Speaker's Bureau Toolkit: CHIP/CDC Infographic Discussion

- Lisa Morris (PPH) contacted the designer at CHI and handed out 2 revisions of the infographic along with the original copy. Revisions will need to be made regarding color, format, and pictures. These were identified at the meeting. Sally Minkow (LRGHealthcare) mentioned that the handout needs to define the region the Council serves and to list the 11 towns. Colors will be changed back to original colorful style vs. the various shades of blue. Lisa Morris (PPH) asked the Council in what type of format they would like the tool kit. Council members agreed on large posters (possibly foam core), digital copy, and handouts. Lisa Morris (PPH) wanted to see what the Council's opinion was on the CDC's infographic. The Council would like to include the CDC infographic in the tool kit. Alida Millham (Laconia Resident & PPH/LRGHealthcare BoD) mentioned that the handout provides linkage to the original CHIP presentation and backs-up what the Council is promoting. Also, it helps identify members of the community. Alida Millham (Laconia Resident & PPH/LRGHealthcare BoD), Susan Smith (NH Voices for Health/Gilford Resident), and Rich Crocker (State Committee on Aging) will work on identifying key points for presentations. (See WPHC and CDC Infographics)

2. Franklin Naloxone Event Update (Lisa Leary)

- Lisa Leary (PPH) announced that the Franklin Naloxone event was successful in handing out around 45 kits. Attendees included: family, friends, and people with addiction, doctors, nurses, and others (concerned citizens.) The event covered how to use Naloxone, resources such as treatment, peer and family support, community coalitions and recovery. Lisa Leary mentioned that there was a positive response to having the fire department on site for training. The event promoted networking in the community. Lisa Morris (PPH) felt that the guest speaker chosen made a large impact on the attendees. Prior users felt that the event promoted reducing stigma. Rick Silverberg (Health First Family Care Center) said that the event created 6 referrals at Health First. Lisa Morris (PPH) said that Shawn Riley from the Laconia Fire Department has offered Naloxone training to Laconia and other residents of the region. Lisa Morris (PPH) felt that it may be possible to ask if all community Fire Departments offer Naloxone Training. Lisa Morris (PPH) would like to find out if local Fire Departments can be used as a local resource for the trainings.

3. Belknap County Delegation Letter and Testimony update:

- Delegation letter was distributed. The Council felt that the commissioners need a presentation on CHIP and how it relates to budget cuts. Belknap County did place money back into the budget after WPHC and other letters were submitted and testimony was provided.

4. DHHS Visit to WPHC:

- DHHS would like to meet with the Council. The Council was asked to help create topic areas for the agenda. The Council will give DHHS an hour of the meeting time in either April or May's meeting. Lisa Morris (PPH) will keep the council posted on when DHHS will attend the meeting.

5. SIM REGIONAL PRESENTATIONS:

- Presentations will be held at the Tilton NH Veterans Home Thursday March 10th and in Meredith (date and time have not been set)

6. Presentation: Access to Behavioral Health-Kathy Randazzo, Quality Improvement Director, Genesis Behavioral Health

- Kathy Randazzo presented on Access to Behavioral Health (See PowerPoint Presentation) Lisa Morris (PPH) asked Kathy how Genesis fits into the CHIP priority. Kathy Randazzo said that patients now have access to the Emergency Services Line, which is a 24/7 service of trained professionals who can answer crisis calls. They have also doubled their staff and have been able to hire more clinical staff. Difficulties in the Behavioral health industry include the 50% no-show rate; it makes it difficult to offer services.

7. Next Meeting: Franklin Savings Bank Welcome Center (Behind Tilton Diner) on Thursday April 7th, 2016 3PM-4:30 PM.
